Proactive and passionate **software developer** with experience in creating, improving, and completing web applications and projects, with a background in **web design**, E-commerce, custom brand graphics, and marketing. Focused on streamlining, optimizing, and managing processes. I look for opportunities to grow, connect to people, and develop my skills. Also interested in automation and data analysis. I am always learning and having fun doing it.

Work Experience

Technical Support Specialist (remote), Valoris

July 2023

- Technical support for software issues and troubleshooting problems in the Kyocera Document Solutions project.
- Working with clients from the Porsche Group Romania (porsche, audi, skoda, lamborghini, vw, bentley etc.)

QA Game Tester, Greenlink

Oct 2022 - Nov 2022

- Collaborated on a small project with a team of testers to identify, isolate and report bugs. Using Jira to accurately document, track and report issues found during testing.
- Created detailed reports and personally collaborated directly with developers to identify potential areas of improvement.

Customer Relations Agent, IQBox

2021 - 2022

- Generated ~44%+ more sales than the average employee every month, through optimising work and a more effective approach.
- Trained a team of 5 people with ~38% more sales than the average.
- Specialist in the representative company's team meetings regarding the big change of the company's Telecom partner to Vodafone in 2021.
- Personally implemented more effective low-end target strategies in the department.
- Proficient in data entry, CRM systems and document management.

Web Designer Freelancer

2020 - 2021

- Designed and developed E-commerce websites and landing pages with Wordpress and Elementor.
- Integrated Facebook Pixel Analytics for sales and leads tracking.
- Maintained and administered websites, including updating contents and improving user experience.
- Experience in troubleshooting and debugging issues related to website design, user data, gdpr, chat, payment and translation.

Education and Courses

- Complete Web Developer, Studioweb
- Python Basic, Step IT
- Business Finance and Entrepreneurship, Dalles GO

- The Complete 2023 Web Development Bootcamp, Udemy
